

Enclosed Tote DEF Dispensing System

Available in single or double tote capacity

SPATCO®'s Enclosed Tote System is made of durable, building-grade materials and is insulated to protect your DEF from extreme temperatures. The system is pre-piped with stainless steel piping and is wired for immediate dispensing upon delivery. This system is ideal for medium to large fleet applications including trucking companies, municipalities, and private and commercial fleets.

Features:

- Insulated to maintain DEF temperature
- Self-priming Mag Drive Pump
- Wide door access for ease of tote exchange
- 1 micron filter maintains product purity
- Secure and lockable building
- Positive displacement gear flow meter with 0.5% accuracy
- Spring retractable hose reel with stainless internals
- Stainless steel automatic nozzle
- 15' dispensing hose, 5' suction hose for quick and easy mounting to tote
- Electrical: 120 V or 230V, Single Phase
- Dispensing Flowrate = 6-8 GPM

Options:

- Double tote capacity
- Secondary containment
- Weights and Measures Certification
- 1000 watt or 2000 watt heater

The SPATCO® DEF Enclosed Tote System is available for purchase by contacting your local distributor or by calling (866) 9 SPATCO.

ABOUT SPATCO® DEF

SPATCO® has been an industry leader since 1935, providing a complete line of equipment and services for storing, pumping, mixing, and metering petroleum and industrial liquids.

Our customers include commercial and private fleets, municipalities, school and city bus garages, trucking companies, agriculture, construction, and retail truck stops.

We have the most extensive network of qualified distributors throughout North America who provide sales, installation, and service for our DEF dispensing equipment. To locate a distributor in your area, visit www.spatcodef.com/distributors.
