

External Dispensing & DEF Storage System

Available with 525, 1025 or 2000 gallon DEF tanks

SPATCO®'s External Dispensing & Storage System can be used for retail and commercial applications and is available with 525, 1025 or 2000 gallon DEF storage tanks. It is constructed from durable, building-grade materials and is insulated to protect your DEF from extreme temperatures. The system is pre-piped with stainless steel piping and is wired for immediate dispensing upon delivery. This system is ideal for medium to large fleet applications including retail truck stops and c-stores, municipalities, and larger fleets.

Features:

- Available with 525, 1025 or 2000 gallon tanks
- Insulated enclosure with secondary containment
- Mag-Drive self-priming pump
- Stainless steel, lockable refill cabinet
- Welded stainless steel pipe
- Compatible with Dresser Wayne, Gilbarco and Bennett dispensers, as well as most POS systems.
- Automatic shut off valve to prevent overfilling tank
- Electrical: 230V, Single Phase

Options:

- 1000-2000 watt heater with thermostat
- Local or remote tank level monitoring

The SPATCO® DEF Storage & Dispensing System is available for purchase by contacting your local distributor or by calling (866) 9 SPATCO.

ABOUT SPATCO® DEF

SPATCO® has been an industry leader since 1935, providing a complete line of equipment and services for storing, pumping, mixing, and metering petroleum and industrial liquids.

Our customers include commercial and private fleets, municipalities, school and city bus garages, trucking companies, agriculture, construction, and retail truck stops.

We have the most extensive network of qualified distributors throughout North America who provide sales, installation, and service for our DEF dispensing equipment. To locate a distributor in your area, visit www.spatcodef.com/distributors.
